Due to Protek's commitment to teaching and learning, we are involved in several Learning projects worldwide, this enables us to present great opportunities to our customers to which other suppliers may not have access. For example technology grants and global collaboration programmes to enrich the teaching and learning experiences to both teachers and students around the world. This sees Protek's reaching not only English Schools but with our learning projects we are involved with we get to work with schools in countries including America, Northern Ireland, Wales, Italy and elsewhere in Europe. With plans to increase our global reach year on year, we are always (looking at getting involved with) countries in an effort to reach an overall goal of 'Empowering Education'.

**Ms Beacon**

I am extremely happy with the work completed by Protek in my school. They were able to skilfully integrate new technology into our systems and worked well with our on-site technician to make sure everything was working well and that I understood what I needed to do next if something went awry at some point in the future. Delivery to full set up occurred in less than 24 hours - amazing!

Ms Beacon, Headteacher

**Mr Harkness**

A short note of thanks to say Protek worked very efficiently and ahead of schedule. They undertook the necessary training with staff and were very helpful with their advice. We were more than happy with the service provided and they gave a very favourable impression of Protek. Thank you!

Mr Harkness, Headteacher

**Ms O'Kane**

Thank you for the prompt and efficient service. Apologies for the technical delays and obstacle which were presented in our school. Thanks for your patience!

Ms O'Kane, Headteacher
